If you're looking for a grate Classic bike, custom or stock. You have come to the right place. I am importing fully restored BSA's that have been metrically rebuilt to original specs. **The plus side of owning a classic bike is that these bikes will only go up in value.**

You can pick any color at no additional cost and a range of Modification (*Clubman, Military, Vintage*) the kits range from \$1,200 to \$600. I can also get Side Cars with 19" wheel for \$3,500 and Trailers for \$2,000.

The bikes are custom built to order and then shipped to, all paper work and documentation are included with the shipment. A 50% down payment is required at the time of order and the rest upon delivery to Canada. I can also arrange for shipping anywhere in Canada at an additional coast.

Please contact Lars Budczinski for more details if you are interested.
